**TTT for PNG - Taps, Toilets, Transformation** for Papua New Guinea is a project that addresses the disgusting bathrooms and toilets in girls' dormitories. The women of PNG are abused and hurting. Over half of them have been raped. 80% of women suffer from violence in some form - stabbing, cutting, beating, torture - this country has one of the highest rates of domestic violence in the world. They need dignity and respect. The upgrading of these bathrooms helps to address this issue. We have fixed some schools but there are many more to go. *Any donation goes a long way and will help many girls. THANK YOU*

**KGS - Keep Girls Safe** is the name I gave a project I helped set up with ADRA Thailand when my son, Marlon, worked there during the late 1990s. We have been able to put many girls into school to be safe from Mr Na who bought them from their parents and took them away to the cities to 'work'. The girls are taken away become sex slaves and prostitutes. Girls as young as 10 or 12 are used, abused and hurt. The KGS house in Chiang Rai provides girls with a safe home, a school to attend and a church family who love them. They prepare for a life of safety and freedom with a future for service. *A donation or willingness to be a volunteer would cheer the hearts of the girls and support Sunitra, the compassionate carer of the girls. THANK YOU.* <https://adrathailand.org/wp-content/uploads/2020/05/KGS-Newsletter-Q1-2020-English.pdf>

**FGM - Female Genital Mutilation** is a dreadful scar on the face of the Savannah of Africa. In some countries more than 90% of the girls and women suffer this cruelty. The reasons given are for purity and pride. Women suffer extreme pain when having sex or giving birth. In some countries it is illegal, yet the painful procedure is done in remote places where the police turn away or the screams are not heard as old women cut the girls with rusty blades and knives. This tradition is abominable and Kim and Barbara are two women who try to change attitudes and help girls escape these cruelties. *Your donation can provide a girl with a safe place and an education. THANK YOU.*

**WCTU - Woman's Christian Temperance Union** is the oldest women's organisation in the world. It started in 1874. We stand for abstinence from the SAD poisons - Smoking, Alcohol, Drugs. These poisons cause immense grief, worldwide. Women and girls suffer abominable cruelty as a result. Thousands of babies are

born damaged beyond repair - FASD. We are MAD - Mothers Against Drugs. We attempt to educate, legislate and agitate. Join today - <http://wctu.org.au/> <http://wwctu.org/>

***Help me speak up for women who cannot speak for themselves - Proverbs 31:8,9***
